How to edit ownCloud shared files on IOS device.

Basic feature of ownCloud mobile app is read-only. This means upload, download and sharing files between your device and ownCloud server. If you need to edit documents on IOS device (just like Office Application) then you need a editor app.

Download Editor app (e.x. Excel App) and sign-in to Microsoft.

Select File to edit.

Make sure you download first (Green check mark means = downloaded.)

On the Preview mode screen, tap share (left bottom) and select [Open in]
